---

iiG

is a digital and technology consulting company providing end-to-end solutions and value-added professional services in strategy, technology, brand & customer experience, and communication to create value and growth for our clients.

Our history

founded since 1991, engage in providing IT solutions for end-to-end enterprise applications to leading organizations. Over two decades, we have built a best-in-class team of professionals who understand your industry and your business together with a full spectrum of technology expertise to help you deploy IT solutions to meet business challenges.

With the emergence of Cloud Computing, we currently focus our offerings in Customer Relationship Management (CRM) solutions on the cloud. We provide consulting, implementation service, multi-vendor integration, custom applications development, and ongoing support services to help you to become a customer-centric enterprise.

Technology has constantly changed with ever-increasing pace, but one thing that never change at I&I is our principle - our belief that without making your project successful, we can't be successful. It's our mission to make you our Customer For Life.
